Work experience

Kiln / Founding product designer

April 2025 - Present / Paris, France

- Led design 0→1 on Kiln's Enterprise Dashboard — the unified platform to track staking, DeFi & RWA yield, now used by 200+ institutions managing \$18B+.
- Built the company's first design system from scratch, scaling a consistent experience across a fast-growing multi-product suite.
- Turned complex crypto infrastructure into intuitive workflows for institutional clients like Revolut, Ledger & Crypto.com.

Clone / Product designer

Dec 2023 - April 2025 / Paris, France

Development of an internal tool for the finance team

- Enable easy operations on delivery platforms and increase sales and brand attractiveness for Clone.
- Implementation of an analytical dashboard enabling them to monitor and steer the performance of the Clone brands.
